Instructions for new installations:

Prior to installation, ensure that the Chrome and glass lid is tightly secured to the unit body, in order to maintain IP integrity.

- 1) After deciding where to place the spotlight, ensure cables are long enough to connect from mains supply to spike light in the desired position, and are not a trip hazard.
- 2) Fit the ground spike to light unit by screwing together.
- 3) Push spike into the ground, ensuring the lighting unit is facing in the desired direction.
- 3) Make adjustments to height of the light angle as required, by rotating lighting unit on holding bracket.
